Machine Learning. Manhattan College. DeBonis. Project 7.

- File Necessary:

    i. Go to Los Alamos National Laboratory Cybersecurity website: http://csr.lanl.gov/data/auth/

    ii. Download file http://csr.lanl.gov/data/auth/lanl-auth-dataset-1-00.bz2 (215M)

- Extract your own network features from the data.

- Here are some tried and true network features if you get stuck:

  https://github.com/ivan-brugere/matlab-networks-toolbox

- Collect 12 different features on the LANL data
